

# LADS AND LASSES

A great way for kids (Ages 4-6 years old) to start enjoying the great game of golf. During the hour we are constantly focusing on your kid having fun first, learning the basics of golf second.

There are four stations set up to ensure the kids are fully engaged with new goals every 20 minutes.

Putting – six different stations so each kid is not waiting for their turn

Chipping/pitching – three different stations hitting real golf balls into cool targets.

Bunkers – hitting out the bunkers (sandbox)

Full swing – (Big Dog) hitting to a simulated par three.

Lots of games for the kids to play and have fun without realizing they're learning.

Please ensure your kids have the right clubs. Kids grow on average 3 inches each year. It's important they grow out of the clubs not into them. Kids Clubs are the best. They will have the height stated on the box.
